

SYSTEMK4

Success made by Kreussler

GREENER DRYCLEANING

At Western Mountain Cleaners we care about our clients and the environment, and we are determined to do our part for you, our community, and the earth we share. That's why we use SystemK4. Unlike traditional drycleaning, SystemK4 is halogen-free, organic, and biodegradable. Greater than 99% pure, SystemK4 is gentle on skin and has been tested to clean as well as, if not better than, traditional solvents and other green solvents on the market today.
